The screenshot displays the WUFI Pro 5.2 software interface. The title bar indicates the file path: C:\Program Files\WUFI\WUFI5\Projects\WPANKYU.W5P. The main window is titled 'Projekt/Variante: PANKYU\_House\_12/Erdreich-ohne'. The interface is divided into several sections:

- Left Sidebar (Tree View):** Contains a hierarchical list of project components. The 'Variante: 4 Erdreich-ohne (Akt.)' section is expanded, showing sub-items like 'Bauteil', 'Steuerung', 'Klima', and 'Schnellgrafik'. The 'Bauteil' section is further expanded, showing 'Aufbau/Monitorpositionen', 'Orientierung', 'Oberflächenübergangskoeff.', and 'Anfangsbedingungen'.
- Main Workspace:** Displays a cross-section diagram of a building foundation. The diagram shows a concrete layer (Beton C12/15) with a thickness of 0.15 m. The left side is labeled 'Außen (linke Seite)' and the right side is labeled 'Innen (rechte Seite)'. The diagram includes a grid pattern representing the internal structure.
- Right Sidebar (Settings and Calculation):** Contains several buttons and input fields:
  - Buttons:** 'Materialdaten', 'Quellen, Senken', 'Neue Schicht', 'Duplizieren', 'Entfernen', and 'Bearbeiten Aufbau'.
  - Input Fields:** 'Schichtname' (Beton C12/15), 'Dicke [m]' (0.15), 'Zuordnung aus Datenbanken' (Materialdatenbank, Konstruktionsdatenbank), 'Gitteraufbau' (Automatisch (I), 70, Mittel), and 'Aut. Unterteilung in Manuelle kopieren'.
  - Calculation Results:** 'Gesamtdicke' (Dicke: 0.15 m), 'Warmeschutzigenschaften' (Warmedurchlasswiderstand: 0.08 m²K/W, U-Wert: 4.911 W/m²K).
- Bottom Status Bar:** Shows 'Einheiten: SI' and 'Letzte Rechnung: 2007-03-08'.

# Thermal-Bridge

The drawing illustrates the thermal bridge locations (TB 01 through TB 07) on a building facade. The facade is divided into two main sections by a vertical dashed line representing the ground level. The left section shows a wall with three horizontal segments and a roof section. The right section shows a wall with two horizontal segments and a roof section. The thermal bridge locations are marked with dashed circles and labeled TB 01 through TB 07. Dimensions are provided in millimeters (mm) and meters (m).

Dimensions (mm):

- 9250 (horizontal distance between TB 01 and TB 02)
